STANLEY HOUSE.

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, in Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continue it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing. The House, Post Office, and but a few minutes walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it every respect a model to none in the State.

Stages for all Stages leaving town will be kept at this House.

In connection with the above are good tables with attentive and careful Hostlers.

New Livery Stable

....AND....

NEW FIRM.

ON FRANKLIN BRIDGE,

NEAR THOMS' CARRIAGE SHOP.

...Messrs. *Nash & Trask* have opened a Livery Stable at the above place, where they intend to keep and furnish as good teams as can be found in any Stable in Bangor. Their stock is all new, and of the latest styles, and adapted to both business and pleasure.

Mr Nason will devote his attention to the business and will be always found ready to answer all calls. Terms moderate and satisfaction guaranteed.

Remember the place, near Thoms' Carriage Shop.

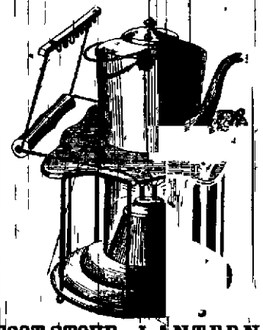
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm beside giving the light desired, and for cooking in small quantities. For making tea, etc., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as the use can immediately be understood by any intelligent person on the inspection of it.

Having carefully tested these inventions myself, I do not hesitate to say to all contemplating purchasing, that they will be found fully answering all the recommendations I have given of them.

Try Wilson's Cod Liver Oil and Lime

I have used the medical qualities to be a healing and natural tonic, and that they will be found materially instrumental in checking the progress of the disease, and in many cases of incipient consumption will effect a perfect cure. Moreover I have, after a careful analysis of your preparation, satisfied myself that it is entirely wanting in that principle in the oil of the physician, as it regards a *recreative agent* but also as a *sustenance* inconsistently strengthening the rest of the system, and thus giving to a consuming live invalid just that weakest will, the *source of sustaining the body while the required cure is effected.*

Having carefully tested these inventions myself, I do not hesitate to say to all consumptive sufferers that they will be found fully answering all the recommendations I have given of them.

I have strongly applied your remedy, and in five months of constant experience have found the constitutional symptoms of the disease to have disappeared almost entirely in all consumptive cases in your *Cod Liver Oil and Lime*. I have found the medical qualities to be a healing and natural tonic, and that they will be found materially instrumental in checking the progress of the disease, and in many cases of incipient consumption will effect a perfect cure. Moreover I have, after a careful analysis of your preparation, satisfied myself that it is entirely wanting in that principle in the oil of the physician, as it regards a *recreative agent* but also as a *sustenance* inconsistently strengthening the rest of the system, and thus giving to a consuming live invalid just that weakest will, the *source of sustaining the body while the required cure is effected.*

Having carefully tested these inventions myself, I do not hesitate to say to all consumptive sufferers that they will be found fully answering all the recommendations I have given of them.

Annual Meeting of Mercantile Association

At the Annual Meeting of the Bangor Mercantile Association, held on Thursday evening, the following officers were elected for the ensuing year, viz.—

G K Jewett, President.
Isaiah Stetson Vice President
Geo B Starrett, Secretary.
F M. Sabine, Treasurer.

J S Wheelwright,
J Speed Ricker,
J A Cushing } Directors
Thomas Mason,
R S Prescott
W H Mills
Cyrus Goss,
James Frye, } Arbiters.
F F French
B A Wood
S H Dole,
J F L. Hayward } Lecture Committee.
G K Jewett

The President, G K. Jewett, presented the annual report of the affairs of the Association.

Report of Isaiah Stetson, from Com to collect statistics of the trade of Bangor, for the year 1855 was presented

Gentlemen of the Mercantile Association

A provision in your Constitution requires, from the 'Committee of Direction,' an annual report of the affairs of the Association. In submitting the same, it is with deep thankfulness we congratulate you, that our members the past year, have not been diminished by a single death

The number of paying members, it is believed has slightly increased since the last annual meeting.

The interest heretofore manifested in the Library and Reading Room, by its members, has continued unabated, as appears in their increased numbers, and by the returns of the Librarian, of the number of volumes delivered the past year amounting to over 14 000—against 13,000 delivered the year previously 372 volumes have been added to the Libraries during the current year of which number 77 vols were added to the Social Library The selections of new vols have been made by the Directors, with much care and method The Libraries now contain about 4200 volumes

We acknowledge a donation from Rev A Battles of Mrs Child's Progress of Religious Ideas in 3 vols, also many valuable Congressional documents from Messrs Hamlin and Washburn

Your Treasurer will lay before you his report of the receipts and expenditures of the past year

The special committee appointed to obtain statistics of the imports and exports of the port, in the leading articles of trade, the past year, have received the hearty co operation of our merchants in their efforts, and have obtained as accurate results as the facilities at their command afforded. A report of their doings will be presented to you

The course of lectures delivered under the auspices of this Association has been well appreciated and supported by the public, and the Lecture Committee are entitled to the thanks of the Association, for their success al efforts in obtaining so large a number of distinguished lecturers

It is recommended to have an annual course of lectures sustained permanently by our Association and it is not doubted that hereafter a handsome yearly surplus may be thus obtained, with which to enlarge our library

In conclusion it is suggested that there is felt to be yet one great want unsupplied by this Association tho appears to be strictly within its province—viz suitable rooms for our young men to assemble in, during leisure evening hours; for debate, delivery of essays on miscellaneous subjects and other modes of instruction and amusement A large portion of the young clerks in our city have no regular evening occupation many of them no evening home, but kept in the boarding house with strangers, and are tempted for want of no more accessible and inviting place of resort to spend their time and much of their small wages at billiard rooms, theatres and other expensive and often demoralizing places of amusement. Suitable rooms for young clerks to congregate in, would undoubtedly give us a large addition to our subscribers from that class, and contribute to our financial prosperity, while contributing to their means of safety, during the most critical period of their lives Geo. K Jewett Pres

Report on Statistics of the City of Bangor.

The committee appointed at your last annual meeting to procure some statistics of the trade of Bangor for the year 1855, beg leave to report that they have ascertained the quantity and value of the leading articles of exportation from this city with the exception of long lumber, from the lumber dealers and others, who have most courteously responded to the request of your committee for the requisite information. They have estimated the shipments of long lumber from the quantity surveyed the past season as returned to the Surveyor General's Office, deducting the amount now on hand, agreeably to the estimates of several of our principal dealers

The amount surveyed the past season, is as follows

Pine	123,026,161 feet
Spruce	75,337 283
Hemlock	13,305 753
	211 669,193

Of the quantity, it is estimated there is now on hand say 60 000 000 feet Pine, 2 000 000 feet Spruce, and 1 000 000 Hemlock, and they estimate the amount of shipments from this port as follows

93 026,167 ft Pine, valued at	$1 116,313 88
75 337,283 " Spruce,	610,896 26
3 305,753 " Hemlock,	58,140 27
174 669,193	$1,785 153 61
116,669,800 Shingles,	493,325 39
6,789,678 Clapboards,	148,265 39
76 151,700 Latts,	103,553 12
2,523,000 Pickets,	29 911 46
5,193 Tons Juniper Timber,	38,622 00
37,253 Ship Knees,	79 058 78
1,713 Tons Pine Timber,	16 992 00
Masts and Spars,	23,300 00
45,600 R. R. Sleepers,	11 625 00
30,569 Cedar Posts,	3 817 62
5 734 Cords Hemlock Bark,	40 424 00
62 000 Fish Barrels,	32,038 24
11,470 000 Bricks,	58,250 00
95 204 Sides Sole Leather,	26 1,709 00
1 740 Tons Roofing Slate	34,800 00
1,228 " Pig Iron,	38,340 00
Making a total value of	$5,038 245 23

Although the articles placed on this list are the leading articles of export, they by no means constitute the total amount.

To the list may be added Singer Box Shooks, Headwood and ship timber and planks Sash, Door and Blind stuff, Cart, Pail Drums, Dry Casks, Hoops, Steam Engines, Boilers and Machinery, Packed Beef Hides, Sheep Pelts, Wool Dressed Sheep Skins Fury, Shovel Handles, Looking Glass and Picture Frames, Bedsteads, &c, &c, the sales of which would very materially increase the aggregate of our Exportations

Your committee think the exportations of all kinds, from this port the last year, may be set down at three and a half million dollars.

Your committee have not been able to ascertain very satisfactorily, the amount of importations.

From the returns of the Harbor Master, made to the City Council guided by such other information as they could obtain, they place the importations of 1855, as Flour, Corn, Pork, Molasses, Salt and Coal, as follows

Flour 60,000 bbls
Pork 5 000 bbls
Corn 200 000 bushels
Salt 36 461 bushels
Molasses 3 475 hhds
Coal 8 799 tons.

The greatly reduced demand, consequent upon the comparative limited lumbering operations of the past winter, for several of the articles in this list, the high price of most of them, together with an increase of the agricultural products of the region the past year, has induced a smaller importation of the articles enumerated, than the average of many years past.

The arrivals foreign and coastwise, of vessels of 50 tons and over, from the opening of the river, April 15, to its close, Dec. 12th, as reported by the Harbor Master is as follows

Schooners	2078
Brigs	125
Barks	10
Ships	1
Sloops	3
Total	2217

Clearances a like number

Of this number there have been arrivals from foreign ports 17, Clearances to do 6

To these are to be added the arrivals and clearances of quite a fleet of vessels under 50 tons employed in the navigation of the river and bay Also the arrival and clearance of two or three steamers, each making two to three trips per week

Your committee in conclusion would congratulate the Association that this first attempt to collect some statistics of the trade of Bangor although not so full and complete as desirable, indicates such gratifying results—and trust it may be followed by others more full and satisfactory These annual statistics of the trade of the City cannot fail of proving of much interest, exhibiting as they may, to no inconsiderable extent, the business of the place, and enabling us to note its changes from time to time

All of which is respectfully submitted

For the Committee
ISAIAH STETSON

THE ACT CONSUMMATED.—The Executive Council adjourned yesterday, (Friday) after Governor Wells had consummated the most arbitrary and unjust act of removing Judge David from the Supreme Bench without any cause proved, in pursuance of the vindictive demands of personal and party hostility and to the utter subversion of the independence of the Judiciary It is understood that no member of the Council had the justice, the manliness, or the honesty to raise his voice against the unworthy deed. That the people will vindicate both the outraged Department and the outraged Judge, we cannot doubt

RAILROAD ACCIDENT.—Thursday last was something of an unfortunate day for the freight trains in Maine On the Penobscot and Kennebec road the freight train from Waterville, when ad Hermon, met with an accident by the running off of the first car and throwing it off the track and thus forcing off the second car Both these freight cars were injured. The passenger car remained upon the track and was not injured. The engine passed over the road without trouble and the obstructed car became unshackled The damage was not large.

On the Atlantic and St. Lawrence road, four freight cars were smashed up by running off the track

Two freight cars on the Little Androscoggin road were broken up by running off the track

These accidents were occasioned by the action of the frost upon the rails—the flexibility of the engines allowing them to pass over easily, but the stiffness of the freight cars caused them to bring up with a jerk, and thus threw them from the track

SPIRIT MANIFESTATIONS.—On Thursday and Friday evenings Dr. Dods, by certain apparatus, produced upon several persons a vision of spirits, in the presence of a large and excited audience. He gave notice that he would on this (Saturday) evening deliver a very important lecture, and explain how all may, at last, be brought to the spirit seeing faculty! He said that on Sunday evening at the Norumbega Hall, he would deliver his last lecture—that the subject would be the *Philosophy of the Atonement*—that his arguments would be original, such as spirits have communicated to him, and which the community have never yet heard He will commence speaking at precisely half past 7 o clock

The trains on the Penobscot and Kennebec Railroad commenced running under their Spring arrangement next Monday morning, for which see advertisement.

"The Republican party, in its first year attempted to subordinate the various religious denominations of this state and attach their members to its dynasty by carving up among them all the landed property of the state for their various sectarian academies, under the pretense of promoting the cause of education"—*Bangor Journal.*

This is a false charge. The Republican party in its first year had a large majority in both branches of the Legislature, and had the entire control of the Legislation, and not one acre of land was given to any academy, sectarian, or otherwise Various petitions were pressed upon the Legislature for aid to various institutions of learning and these petitions were referred to a committee, and the petitioners had their friends among the members, but the Republican majority did not see fit to accede to the wishes of the petitioners Out of such a state of facts, the Journal manufactures the above charge Can baseness farther go?

LINCOLN REPUBLICAN. We have received the first number of a weekly paper with the above title, published at Thomaston, by Warren C Plummer The paper makes a good appearance, and enters with ability and zeal into the support of the principles and measures of the Republican party.

Thomaston is an important location, and the people there should see to it, that it is well supported

Terms for the campaign of eight months, $1 00

The peach trees were in bloom in New Orleans on the 5th of February, and the farmers of Southern Texas had begun to plant corn two weeks before!

The ice has left the Penobscot river below Creby's Narrows and is weakening and wearing away rapidly The ice pokers have determined that it shall leave on Fast Day if it does not go out by its own force on Wednesday next, as it probably will.

One of our city agriculturists killed a pair of Shanghae pullets yesterday one of them weighing nearly seven pounds, and fat at that

The ice left the Kennebec, below Waterville, on the 10th

Below we place some comments of a Boston paper concerning a new chemical medicine, which seems to be taking a good deal of attention

Arnold's Globules and Vital Fluid—Their Process of Action—"They neutralize poisons in the blood by giving it Hydrogen and Oxygen—the elements of pure fresh air; and they supply vitality in like manner by their chemical agency The human system is entirely composed of chemical elements, and when the vital principle of health is wanting, something to again supply the system with it is required. Chemical power is needed to restore the lacking chemical element. The Globules and Vital Fluid afford it, amply, by giving the elements of pure air to the blood. The properties with exception that in the Fluid the cathartic power is absent and a laxative is substituted and a greater degree of alterative power is imbued"—*Yankee Blade.*

[To the Editor of the Whig and Courier]

European Correspondence.

BASSOON, Jan. 1856,

I was much amused, some days ago, at a discussion between an Irish gentlemen and a Hamburg physician on the probable issue of an English and American war There was no doubt about the Irishman He was evidently of blooded stock He had drunk John Bull in the milk, and he was himself a part of John Bull, and he worshipped at the shrine of his Bull-ship more devoutedly than the Egyptians of old at that of their God Apis. Moreover he was of the opinion that when John once shook those awful horns of his, it was high time for the small fry of the earth to seek shelter The Hamburger was not so badly tinctured with loyalty He had spent several years both in England and America, and was very well posted upon both. He seemed to have no special predilections for England' indeed he is to be feared he had imbibed a little Republicanism The fear of Bull-horns and Lion teeth didn't seem to stand properly before his eyes, and high born Patrick was quite shocked at the careless manner in which his antagonist sported with these dangerous affairs, as well as the want of reverence he manifested in speaking of their 'divine institutions' and then that indefinitely great, misty and unfashionable cloud of power under a sense of which Patrick ever walked, didn't overshadow the Doctor with such an insupportable weight of glory

It was in one of the largest Hotels and coffee-houses of Hamburg They had been passing their pleasantry back and forth, for some time The bystanders were beginning to get interested, and all who could understand English, or half understand it, began to draw closer The Irishman was getting excited, and showed a disposition to close in on his antagonist

"The United States have no army," said he warmly

"Hardly a bit," responded the Doctor coolly

"Well?

"Well?

"Well, what do you say to it?"

"I say they don't need any Their government stands without being held'

"But in case of war?

"Then they would have an army"

"You talk at random. Soldiers are not made in a day."

"Do you remember their war with Mexico?"

"Yes

"How long did it take them to raise an army then?

"They are a very ready people," said Patrick consolatory, "but that Mexican war was quite a different thing. The Mexicans are no soldiers An army of fresh levies couldn't stand in the field against our regular troops—And then, too, you must remember that it isn't for us exactly like carrying on war in a foreign country. We could either get all our supplies from Canada, or fall back upon Canada, in case of need."

"In the first place," said the Doctor, laying his hat on the table, as it just getting ready to talk, and knocking the ashes from his cigar into a little silver dish,—"in the first place, if you will read carefully the history of the war between the United States and Mexico, you will find, that taking fortified heights and cities and seaports by storm, and marching both through and through a hostile country as they may please to call it, they actually camped in the capitol, *once*, as you say, *a very different thing*."

"In the second place," continued he, "let me tell you that there isn't a boy twelve years old in the United States who doesn't know how to load and fire a gun,—and what's more, when they shoot they hit, which is better than your regulars can do This same song about raw troops and regulars was sung in the time of the American revolution, and I haven't heard of its being sung since. And, really, as for your regulars in the abstract, it isn't worth while to say much about them, for all Europe knows you haven't any of any account.

"In the third place, that Canada boot just fits the other foot, and kicks the other way The United States might let the job to the State of New York, under bonds, to take the whole concern in three weeks They wouldn't risk any longer time."

"We all suppose," said Patrick, "that, if we were to invade America, we should suffer by land as well as she, but you cannot deny that we should drive her whole commerce from the seas?"

"There is no doubt of it," assented the Doctor, with provoking indifference

"Well! what will she do then, said Patrick, with a wonderfully comfortable smile, and he rubbed his hands on his two knees, and ventured a glance at the auditors

"Well! I suppose she will return the same usage. I don't know of anything better to be done

"What do you mean

"I mean, of course, that the United States will destroy your commerce if a war breaks out."

You are both stubborn and foolish, retorted the Irishman "If you know anything about it you know that the United States have comparatively no navy, and you know that we have the strongest navy in the world How long would it take us to destroy what few vessels of war they have? Put our Duke of Wellington in the midst of them to-morrow morning, and she would sink them all before noon

"Not so fast by far," replied the Doctor—"that they have but a small navy is as true as that they have little or no army, but to destroy what little they have would cost you much in money and vessels and men The American people, however, would get up something to play navy with, just as quickly and just as well as they get up armies If they hadn't a single gunship to-day, and war were declared to-morrow, in less than a month you couldn't get your merchant vessels insured here in Hamburg for nineteen shillings on a pound

"You make things look wonderfully," said Patrick "Would you please explain how it to be done

"With the greatest pleasure Do you know the United States have the swiftest sailing vessels in the world

"Admit it for the sake of argument Are they going to make a navy of merchantmen?

"Admit it, or not, it is true but do you appreciate how many they have?

"As many as you please," said Patrick, "their commerce and carrying business is enormous This was said with the greatest readiness, and even eagerness It was evident that Patrick's inner eye saw them all safely moored in the harbors of England, with the cross of St George waving gracefully aloft.

"What I won't to say," said the Doctor, "is that when you fall out with the United States this enormous commerce will turn into war

"A navy of merchantmen? Brigs and schooners and sloops" cried Patrick "It would be a fearful armada! How many such vessels would it take to cope with one Duke of Wellington?

"Wait a moment," ejaculated the Doctor, for they were both getting in earnest. "If you should send out the Duke of Wellington to catch merchant vessels, scattered over the Atlantic, how many could she take at once?"

"Probably one

"Couldn't a little cutter, with six guns and twenty men do just as much?

"Of course" said Patrick, impudently,—"but a little cutter with six guns and twenty men couldn't knock down cities the way the Duke of Wellington can," and he looked triumphantly around the group.

"The Duke of Wellington is a wonderful vessel," modestly replied the Doctor, "but let us look at the matter a little How much did she cost?

"I can't say precisely, perhaps two hundred thousand pounds

"And how many men does she carry?"

"A thousand or twelve hundred,—and Patrick looked still more excited, but the Doctor didn't seem to open his eyes a bit wider than usual

"The Duke of Wellington,' continued he, "is very much like your government She costs a great deal of money, cuts a big swell, and is of very little use As for knocking down cities, you will find very little of that to be done You may send over your wonderful navy, and destroy a few villages or bombard the gone forts of Maine or Florida, but the great harbors you can't get into. While you are doing this, however, the Americans will be giving a death-blow to your commerce, and they won't ask for any such ships as the Duke of Wellington to do it with, either. They are too practical for that. The same money will give them fifty little swift-sailing cutters with six or eight guns each, and the same crew will man them with twenty men each And these fifty cutters will be worth just as much, to catch merchantmen, as fifty Duke of Wellingtons, and if one is lost, there will be forty-nine left But what the government would do is nothing, compared to what the people would do. Letters of marque would be taken out, and in three months there would be Privateers enough on the Atlantic to stand within sight of each other all the way from New York Bay to the mouth of the Thames"

The Doctor fairly brought down the house. There was a perfect roar of laughter. The Irish gentleman looked fired red and then blue, and at last wisely grinned himself. Just then there came a voice from behind the crowd—

"Good on you hand, little feller!"—and groans and hisses from all quarters, to welcome the speaker.

"Mebbe they can lock us up fust, 'n' batter us pooty smart, but I reckon we can dig potatoes for the next five years, 'n' build a navy that'll cover England all over with rattlin stuff, 'n' then, continued he, "I guess we'll just shovel her on board, 'n' take her over to patch out Rhode Island with 'Twon't be much of a job 'n it'll save her from gettin' whipped any more!"

It was perfectly irresistible, and was succeeded by an uproarious shout, and one fat little Hamburger held his rotund corporosity with both hands, and shook himself till his hat fell off, and his friends had to hold him from falling himself, while his eyes were all the time fixed on the Irishman.

"There," said the Doctor, still laughing, as he rose to go, and addressing himself to his antagonist, who was already buttoning his overcoat, "there is one of the twenty-five millions you'll have to

"*I believe it*," said Patrick, breaking in upon the Doctor, and at the same time making his exit And so the scene closed.

It is almost superfluous to add that the third personage was a Down East Captain, who had dropped in to see what was going on.

The Stimulus to Action

If any further stimulus to action is wanting, to induce the friends of freedom, at the North, to lay aside their petty differences, and unite for the advancement of the common cause of constitutional liberty it could be found in the argument made use of at the South, in reference to the great question of the day—the freedom of Kansas,—for, on the issue of that, evidently hinges the fate of all the we have been contending for, for years. We have already presented the sentiments of Atchison, the prime mover in the repeal of the Missouri restriction, given as the reasons for his action, as he has at different times, avowed them, in his speeches to the "Border Ruffians" But we give them again, below, as taken from a late letter of his, for the sake of coupling them with an extract from a speech made at a recent Kansas meeting in Charlestown, S.C. Says Atchison, the great "Border Ruffian" leader, writing from Platte City, Missouri—

"The stake the border ruffians are playing for is a mighty one If Kansas is abolitionized, Missouri ceases to be a slave State, New Mexico becomes a free State, California remains a free State; but if we secure Kansas as a slave State, Missouri is secure, New Mexico and Southern California, if not all of it, becomes a slave State, in a word, the prosperity or the ruin of the whole south depends on the Kansas struggle"

This extract comprises in a nut shell, the whole of the reasons, not only for the movement for the repeal of the Missouri Compromise, but for all the subsequent attempts connived at by the administration which have been made by the slavery propagandists of Missouri, to subjugate Kansas to the dominion of the slave power. It exhibits the real motive which has, from the beginning, actuated the authors, and chief supporters of the Nebraska bill.

As a corollary to this, we give the following extract from a speech made at a Kansas meeting in Charleston, S. C., by W B Taben, the editor of the Charleston Mercury. These men understand the philosophy of the matter pretty well Let the free men of the North heed the strength of their logic and act accordingly Says this South Carolina editor, and fierce champion of slave institutions Mr Taber

"What are we to do Look on the map for Kansas See the spot she occupies The North has sixteen States the South fifteen In the United States Senate the North casts two votes more than we; the House of Representatives is absolutely of the North Give them Kansas—they have two more votes in the Senate, and the whole country becomes abolitionized The same cry swells from Maine to Iowa, 'No more slave States' It goes forth from the pulpit, is the burden of the teachings in the Sabbath schools in every condition, in every grade of life But that cry be the precursor of success to its utterers and farewell to the bright anticipations, the fond dreams for the future of southern institutions which we have looked forward to seeing embraced in the arms of a *Southern Confederacy* and proudly defying the world to array —Kansas lies at the very door of the West—on the route of the great Pacific Railroad—she stands out a very prominent in the Union If free institutions gain footing on her soil—if she is added to the ranks of the fanatics, then follow Missouri and Arkansas—all is abolitionism—"It Kansas is made free, where next can slavery advance to the West? Not through the Indian territories—not through Iowa—it is swept back and overcompassed inevitably, absolutely

What a pathetic appeal is here made to "the chivalry" of the South—to come up to the rescue, and complete the accomplishment of the object sought for in the passage of the Nebraska bill—the spread of slavery over the fair territory of Kansas, from which it had been excluded by a Congressional enactment of a quarter of a century's standing Pierce, Douglas, Atchison, & Co had done their share toward the work, and opened the way for the Missouri ruffians and South Carolina Free-eaters to close up the door, by stimulating sufficient emigration from Southern quarters, to outnumber Kansas with a majority of slaveholders Meanwhile, failing thus far to induce a sufficiency of such emigration, to accomplish their object, they have relied upon a temporary subjugation of the territory by invaders from the border, trusting to the success of future operations, for the means of ascendancy. Will not the North take up the gauntlet, and flood the territory with such an inundation of freemen this coming season, as shall demonstrate to the country that they, too, have a full appreciation of the vast issues at stake? These names are no less than what is stated above The freedom of all the remainder of the national territories, the early extinction of slavery from several of the present slave States, and the future permanent ascendancy of Freedom, in the councils of the Nation, are the inevitable results of the successful issue of the Kansas struggle On the other hand, by the surrendering of that territory to slavery, the hopes of freedom for the future will be blasted, and the permanent ascendancy of the slave power in the government be secured"—*Worcester Spy.*

In a South Carolina paper, called the Southern Enterprise appears a letter from Hon J B O Neall, in which, speaking of South Carolina College and the young men who are educated there, he says—

"I graduated in the college forty-three years ago last December. I have been a trustee for thirty seven years. I *know* that I have watched over its interests with all the care of a deep and abiding love, and yet I *know that of all the students graduating from* 1806 to 1856, *for-ty nine years, one-fourth of the whole number are dead drunkards, or are now drunkards*—a shame to themselves and a burden to their families."

Burnham was in court again on Monday at New York, and said to the judge, "I believe I have been squeezed perfectly dry. If you doubt it I hope you will give the machine another turn, so as to save labor to your successors."

A late Illinois paper contains the announcement of the marriage of E. W. Wolf to Mary L. Lamb. "The wolf and the lamb shall lie down together, and a little child shall lead them" after a while.

[Copy of a Letter]
BALTIMORE Jan 8 1856
Messrs C & J Marshall—Gentlemen At the request of your Agent in Baltimore in regard to our opinion and experience of your copper coated spikes we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ship timbers, as you have the strength of iron with the preservative qualities of copper
We have used some of your Spikes in old vessels as a substitute for copper and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation.
Very respectfully yours,
(Signed) JOHN D FARDY & BRO

STEAMERS.

Summer Arrangement.

The Steamers ATLANTIC Capt. Geo. Knight, and the FOR-EST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1.25
Fare on Deck, .50

Freight forwarded daily over the A. & K. and P. & R. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest train from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS, Agent.
march4 tf

California Steamers,
Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices. 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. CAL. BARTLETT, Agent,
No. 16 Broad Street, Boston.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.
WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climates, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Colitis	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	Tic Doloureux
Dyspepsia	Influenza	Venereal Affections
Diarrhœa	Inflammation	Worms of all kinds

. Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes at 25 cts., 62½ cents, and $1 each.

☞ There is a considerable saving by taking the large sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

ma7 1855 eowdkw

GREAT American and Foreign Office,
—FOR—
Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON

R. H. EDDY,
No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as *paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services for moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary for the procuring of patents in this and foreign countries prepared, and advice rendered on legal and economic matters respecting inventions, and the infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the mode of practice at the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

nov27 dcod6m

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FRIENDSHIP, 17th, 1853.

To Rev. Walter Clark, Dear Sir:—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Isaac Hoyt, Lewiston Falls.

Bro. Clarke:—Every bottle of the Universal Cough Mixture which you left with me, I sold—and I have several applications for more. As far as I can learn, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness across the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dixmont, Maine.

Dear Sir:—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir:—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

MARGARET P. HUBBARD.

☞ Sold wholesale by the Proprietor, Cornishville, Maine.

General Agents for Maine—G. F. Sargent & Co, Druggists, No. 8 corner Smith's Block, Bangor—and H. H. Hay, Portland.

Also sold wholesale and retail, by W. L. Alden, and Guild & Harlow, and at retail by the other druggists in the city—at Dixmont by T. Chick; Newburg, Z. Mills; Bucksport, E. S. Parker; Orland, ——Emerson; Penobscot, Varnum & Co. and A. Perkins; Ellsworth, C. G. Peck; Augusta, Wm. Black—and by Agents and Medicine Dealers throughout the country.

AGENTS WANTED.

THE
Grand Medical Warehouse,
No 49 Washington Street, Albany, N. Y.,
DWIGHT CHAPIN, Proprietor.

WANTS immediately and permanently, 100 enterprising Young Men, each with a good Horse and Wagon, and a Cash Capital of from $200 to $500 to deposit as security for faithfulness, &c., to act as Agents in the sale of the most popular Patent Medicines of the day, in the Eastern, Middle, Southern, and Western States, and Canadas, to whom all traveling expenses will be paid, and salaries the first year from $500 to $700, according to the ability of the applicant.

Also, 20 Young Men, of good business tact with Double Teams and Wagon, and a Cash Capital of from $1000 to $2000 to deposit as security, &c., to act exclusively as Wholesale Agents in the sale of said Medicines to Druggists and Merchants, to whom all traveling expenses will be paid, and salaries the first year from $1000 to $1200.

Also, 20 Men, possessed of a high order of business talent, and a capital of from $1000 to $5000 to deposit in pledge for the proper transaction of business, to locate at a convenient point, and cause to act in the capacity of General Agent of a State taking charge of the Traveling Agents, and having full control of the business in said State, to whom all incidental expenses will be paid, and salaries the first year from $1200 to $2000, according to the location, ability of the agent, &c.

Seven per cent interest is paid on all deposit moneys, and satisfactory city reference given as to the integrity and responsibility of the proprietor.

None need apply who cannot furnish good recommendations as to qualifications, &c., as above described. To proper persons, the business is a reliable, paying, and permanent one. Apply either in person or by letter, and full particulars will be given relating to the business. Applications promptly attended to. DWIGHT CHAPIN.

N. B.—Any person wishing information on the above advertisement, will please call on the subscriber, at No. 34 Main street, Bangor, (up stairs) who is authorized to employ agents for the above business.

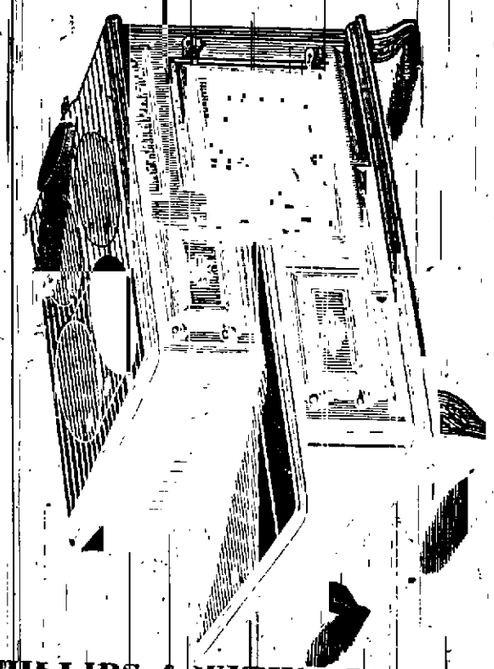
STOVES!



MORSE, WITHERLY & CO.

No. 3 Exchange-st., Bangor,

PHILLIPS & WITHERLY BLOCK,

Would remind their friends and the public generally, that they continue to sell the most approved kinds of COOKING APPARATUS in use, among them that celebrated STOVE, the

BELLE OF THE STATES,

which has not been equalled in this or any other market, and commends itself to every person who, in their selection, desire to combine *economy, convenience* and *durability*, as well as beauty of appearance to the public. Its external appearance is neat and substantial, being heavier than any other Stove of its size, and of a beautiful design. The oven is very large, extending under the fire boxes in front, and heated and ventilated in the most perfect manner. It is WARRANTED to give *perfect satisfaction*, or to be returned and the money refunded.

—ALSO—

A great variety of *STOVES* of less note, such as the Bay State Improved, Granite State, Anglo Saxon, Representative, Boston Jewel, &c., &c., together with an almost endless variety of

Parlor, Office, Hall, and Store Stoves, and Coal Grates,

of the best patterns and qualities. *CISTERN PUMPS*, Block Tin and Lead Pipe, Sheet Lead Iron, and Zinc; Japanned and Britannia Ware—together with a general assortment of

HARD WARE AND CUTLERY.

☞ They would also give notice that they are agents for LOCKE'S PATENT

PLATFORM AND COUNTER SCALES,

☞ All kinds of Tin, Sheet Iron, and Lead Work manufactured to order.

The British Periodicals.
PREMIUMS
TO NEWSUBSCRIBERS

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz

1 THE LONDON QUARTERLY (Conservative)
2 THE EDINBURG REVIEW (Whig)
3 THE NORTH BRITISH REVIEW (Free Church)
4 THE WESTMINSTER REVIEW (Liberal)
5 BLACKWOODS EDINBURG MAGAZINE

THE great and important events—Religious, Political, Military—now agitating the World, give to these publications a degree of interest they never before possessed. The ponderous Tomes of the last century are now read by the living interest of the day. Subjects of speculations, and living rumors, are fast taking the place of the large space in their pages. Every event is criticised, whether of importance or not, and no one can afford to be ignorant of the many brilliant articles which appear in the Reviews and Magazines. The most popular contributors, whose productions are frequently copied, or talked about, but not to be found elsewhere in America.

These Periodicals ably represent the three great parties of Great Britain—Whig, Tory, and Free Church—and politics forms no part in the selection. Each one of the Periodicals is the organ of one of the parties mentioned, and while Blackwood's Magazine is devoted to Literature, Morality, and Religion, the Quarterly is unparalleled in the world for its able criticisms on the literature of the day, while to the intelligent reader of History, Politics, and Religion, a more attractive collection cannot be found than may be acquired from any one of the following Periodicals, which can be obtained from no other source in this country, at so small a cost.

EARLY COPIES.

The receipt of Advance Sheets from the British Publishers gives additional value to the Periodicals, as during the present exciting state of affairs, the earliest intelligence is looked for, and subscribers should commence with the first number of the year.

TERMS AND PREMIUMS
(*No Set of Premiums Issued Separately.*)

	Per annum.
For any one of the four Reviews	$3 00
For any three of the four Reviews	5 00
For all four of the Reviews	7 00
For Blackwood's Magazine	3 00
For Blackwood & one Review	5 00
For Blackwood & the 4 Reviews	10 00

☞ Payments to be made in advance, and the papers will be sent to *one address, and for one year from the expiration of the time*, for which the money is received.

The Premiums consist of the following works (and volumes of which will be given to subscribers according to the number of periods subscribed for, as explained.

PREMIUM-YOU MUS

Foreign Quarterly Review (One year)
Blackwood's Magazine (one year)
London Quarterly Review (one year)
Edinburgh Review (one year)
Metropolitan Magazine (six months)
Westminster Review (one year)

Consecutive Premium volumes cannot in all cases be furnished, excepting the Foreign Quarterly Reviews, to prevent disappointment, therefore, where but one work alone is wanted, subscribers will please order two different works for premiums as there are several of which they may be entitled.

CLUBBING.

A discount of twenty-five per cent from the above rates will be allowed to clubs of subscribers paying for any one or more of the above works at the rate of four copies of Blackwood, or of one Review, to be sent to one address for $8, four copies of the four Reviews, and Blackwood for $20, and so on.

No premiums will be given where the above discount is made to Clubs, nor will the premiums in all cases be furnished unless the subscription money is remitted to the Publishers, without recourse to an agent.

POSTAGE.

In all the principal cities and towns these works will be delivered FREE OF POSTAGE. When sent by mail the Postage to any part of the United States will be but Twenty four Cents a year for "Blackwood," and fourteen Cents a year for each of the Reviews.

Remittances for any of the above publications should always be addressed, post-paid, to the publishers,
LEONARD SCOTT & CO.
121 tf No. 54 Gold Street, New York.

The American Traveller.
PRICE REDUCED.
THE CASH SYSTEM ADOPTED.

THE Publishers of the **Traveller** have decided to furnish their paper hereafter to Clubs at the following rates:

Single copy	$2 00
Two copies	3 00
Five copies	7 00
Ten copies	12 00

with one copy to the getter up of the club.

Twenty-five copies 25 00

Payment to be made in advance, and the papers will be sent to one address, and for one year from the expiration of the time, for which the money is received.

THE BOSTON TRAVELLER,
SEMI-WEEKLY,
Will also be supplied as follows:

Single copy	$1 00
Five copies	4 00
Ten copies	7 00

Stimulated by the flattering encouragement and generous approbation of the reading community through which their journal and its enterprise is circulated, the publishers of the *Traveller* have determined to withhold no effort, whether pecuniary and industrial, to make it, as it now is, superior only to deserve the high estimation which their past labors have achieved; but to merit every additional appreciation as it shall appear to them, and to rival among its contemporaries the position which a discriminating public has by its liberal support on their enterprise, justify, the conviction on the part of the proprietors, that an increase of their endeavors to edify and interest the reading community, will meet with a corresponding increase of the already extensive circulation of the *Traveller*. Our abundant means for obtaining

NEWS

include the receipt of journals from abroad and the whole of our wide spread country, by means of the *use of the magnetic telegraph*, which is now in operation to *nine* different points, thus affording us the most reliable and faithful correspondents at every point of interest, and of domestic point, and an experienced corps of reporters for every passing event. Every effort will be made to reap the fullest advantage of these means, and to augment them as the circumstances shall require.

THE LITERARY DEPARTMENT of the *Traveller*, which has received the favorable commendation of its readers, and the public generally, for its careful and impartial notices of the review of new books, such as may afford to the mind a reliable and useful guide to the merits of the publications of our teeming book press.

THE MISCELLANEOUS DEPARTMENT embraces an original or carefully selected variety of original contributions from able writers, on scientific topics, from which our readers may derive improvement in the mind and affections.

THE COMMERCIAL INTERESTS

In addition to the regular prices current, views of the market and shipping interest, weekly reports are given of the merchandise, and the produce market generally, and of the cattle and stock, made up by an experienced reporter expressly for the *Traveller*.

Agents supplied on reasonable terms

THE DAILY EVENING TRAVELLER

Is published at *Six Dollars* a year in advance, and sold at *two cents* a copy. This pioneer *two cent* paper maintains its ascendancy, and with its *three daily editions*, has an unsurpassed circulation—*giving it a superior advantage as an advertising medium.*
